

Mountain Man Museum

We have plenty of opportunities at the museum that would encompass any number of areas of museum work. Some of those areas could include research, writing, learning to catalog and process archival & library collections, creating and installing an exhibit, marketing and social media outreach, helping to creating a driving tour of Sublette County, helping to create educational programs, or other projects that offer the student a real life working and learning experience.

We are totally flexible with the hours. Some students may want to work all their 60 hours over the course of two or three weeks, which would give them a more intensive experience or some choose to work 10 hours a week over a 6 week period
